

# **IGEM 5700**

# ELECTROMAGNETIC LOCK - Q MAG MAGNET

### Mega-LED:

- This exclusive and patented electromagnet is equipped with a potent Mega-LED, that facilitates the control of the door status at a long distance.

### Security, Quality and Design:

- IGEM 5700 is a unique and highly reliable electromagnet, resistant to any corrosion, a guarantee for security.
- Finished in extruded aluminium, with a robust design, the quality of its materials ensures the maximum strenght without any residual magnetism.

#### **FEATURES** -

- Exclusive design.
- Long distance visibility thanks to its built-in Mega-LED
- Corrosion proof tested: ISO 9027, ASTM B-11790
- No residual magnetism Spring push button (repulsor) not useless on armature plate for magnet release
- Built-in MOV surge protection

### **SPECIFICATIONS**

- Mounting: Surface

- Holding force: 5400N / 540kgf

- Voltage: 12/24V DC

- Current: 500 / 250 mA

- Locking monitoring: Large L shaped LED + Relay

- Dimensions: 268 x 73 x 48 mm

- Weight: 4 kgs

## **DIMENSIONS**
